LOCATOR FIXED® Permanent Teeth are Proven and Patients are Raving About Their New Smiles!

MEET YOUR NEW TEETH

What Patients Are Saying:

“The cost was so worth it to get my smile back, I would hardly smile before. LOCATOR FIXED is more solid. When you eat, it doesn't move.”

-Jeffrey

“I love my LOCATOR FIXED smile. I don't have to worry about taking them out. I even shaved a little of my moustache off so I didn't have to hide my teeth anymore.”

-Mitch

“I could hardly taste anything with my old dentures. Now I can!”

-Lowell

Smile again with

LOCATOR FIXED®
Permanent Teeth

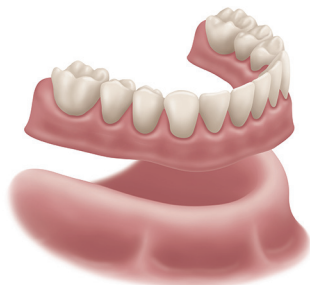

Affordable Quality of Life

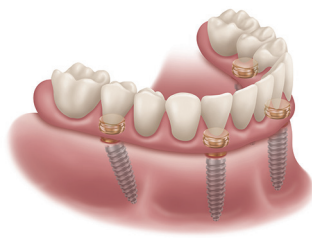

A BETTER SOLUTION FOR CURRENT OR FUTURE DENTURE WEARERS

**Get back the life you had
with your natural teeth.**

**When was the last time you never
thought about your dentures or
failing teeth?**

Conventional Denture

FIXED Prosthesis
LOCATOR FIXED

LOCATOR FIXED® is a permanent set of teeth that can completely restore your smile! FIXED in your mouth, you can eat whatever you want—and eliminate that loose feeling and hassles of traditional, removable dentures.

Customized for you, they look and feel like natural teeth - and can be more affordable than other solutions.

READY TO GET YOUR SMILE BACK?

FIXED, full-arch teeth restorations can be yours faster and more affordable than you think. And with LOCATOR FIXED, confidence in speaking, chewing, smiling and swallowing are back!

- Precision-engineered for your mouth
- Over 95% of patients indicated they were completely satisfied with their treatment².
- Eliminates the need for denture adhesives
- Chew naturally - and taste your food
- Durable and long-lasting
- Only removable by your dentist. Brush like natural teeth.
- Designed to be less invasive than other permanent solutions.

LOCATOR FIXED® A Permanent Teeth Lifestyle

LOCATOR FIXED is a fixed, permanent prosthesis that is only removable by your dental provider. Unlike conventional dentures that often feel unnatural and are 'glued' in place with a temporary adhesive, LOCATOR FIXED is secured to your mouth by a series of implants that are placed by your dentist. It's a modern alternative to dentures...where a dental provider often can turn the original denture or overdenture into a fixed, permanent set of teeth in one short appointment!

No more sore spots - LOCATOR FIXED is designed to minimize and potentially eliminate rubbing on the gums! Finally, a FIXED option that lets a patient eat whatever they want, whenever they want!!
